McMaster University B.A.Sc - Computer Science, 2017

SKILLS

Frontend	React, Angular, Typescript, HTML, CSS
Backend	Nodejs, Javascript, Knexjs, AWS Lambda, Java
Database	PostgreSQL, MySQL, SQLite, MongoDB
Mobile	Android, Kotlin
Test	Jest, Puppeteer

PROJECTS

Chat Builder, M.Eng Capstone Project @ Mikata Health

- ◆ Worked in a group of 3 to develop a chat builder UI which increased efficiency by nearly 50%
- ◆ Built AWS Lambdas on the backend as needed to fetch complex chat details
- ◆ Designed React custom components to create and modify chat nodes
- ◆ Customer success team can build chats within hours now instead of taking days with developer help

Notes, Android App

- ◆ Notes app built using Kotlin, SQLite and SharedPreferences
- ◆ Recycler View used to display notes in Linear or Grid view
